JUDICIAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 1st August 1893.

READ :—

Report on the working of the Indian Companies' Act X of 1866 in Mysore for the year 1892-93.

No. 1964—J. F. 63-92, DATED, BANGALORE, 1ST AUGUST 1893.

ORDER THEREON.—The present report on the working of the Indian Companies' Act X of 1866 in Mysore, for the year 1892-93, as well as the statements accompanying it, have been prepared in accordance with the instructions contained in the Government of India Letter No. 271—8 of 30th November 1892.

2. At the close of the year 1891-92, there were in all 120 companies, of which 46 included in list B were not working. During the year under report, 47 have either been dissolved or came under liquidation, while 7 new companies or associations with an aggregate nominal capital of Rs. 2,06,000 were newly registered. There were thus at the end of the year, 80 working companies on the register with nominal and paid up capital of Rs. 41,53,687 and Rs. 25,68,071 as against 74 companies with nominal and paid up capital of Rs. 40,47,687 and Rs. 24,42,649 respectively in the previous year.

3. Of the 80 companies, 69 were banking or loan companies, 3 banking insurance companies, 1 Dramatic Company limited by guarantee and the rest trading or other companies. 22 companies are located at Mysore, 13 at Bangalore, and the rest are scattered throughout the Province

4. None of the companies have reduced their capital but one has increased its capital—paid up and nominal—by Rs. 8,480 and Rs. 10,000 respectively.

5. Two hundred and fourteen documents were registered against 264 in the previous year. The decrease is attributable to the large number of companies having closed or having come under liquidation in the previous year.

6. The receipts from fees, &c., fell from Rs. 930—12—0 to Rs. 680—12—0 the decrease being due to the fewer number of Proceedings of Ordinary and Extraordinary General Meetings than in the previous year.

MYSORE DEWAN'S OFFICE,
Bangalore, 1st August 1893.

OFFICIAL MEMORANDUM.

With reference to subject No. 272 discussed at the meeting of the Representative Assembly held at Mysore in October 1892, it is requested that Heads of Departments will pay strict attention to para IV of the Rules published with Notification No 3, dated 12th April 1888, regarding the publication in the Mysore Gazette of the existence of vacancies in Government Offices previous to their being permanently filled up.

"By Order,"
T. ANANDA ROW,
Chief Secretary.

To—The Heads of Departments and Deputy Commissioners of Districts

Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 29th August 1893.

READ :—

Letter No. 982, dated 10th May 1893, from the Inspector General of Registration in Mysore, requesting instructions regarding the procedure to be adopted for executing warrants of attachment of property to recover costs awarded under Section 75 of the Registration Act.

Also copies of the correspondence submitted therewith, and the following letter from the Registrar of the Chief Court of Mysore, No. 1971—1172, dated 4th May 1893

Adverting to the correspondence ending with your No. 909, dated 12th ultimo, requesting a ruling regarding the procedure to be adopted in recovering costs awarded by a District Registrar under Section 75 of the Registration Act, I am directed to state that upon an extra Judicial reference like the present, the Judges are unable to offer their opinion as to the legality or otherwise of the practice obtaining in Madras on the authority of the opinion of the Advocate General. The procedure observed in Bombay and Bengal is different which shows that the law contained in Section 75 is differently interpreted. I am however requested to inform you that as at present advised, the Judges consider that the practice in Bengal and Bombay may be followed in Mysore also and that you may accordingly move the Government to issue needful instructions to the Deputy Commissioners. The Registration Law in this respect seems defective but this Court cannot supplement it by any Rule of Practice.

Where there are facilities, the Registrar himself may carry out his order, and if in any case, the Registrar considers, that he may under the provisions of Section 75, and in accordance with practice prevailing in Madras, transfer his award to a Civil Court for execution, he may do so leaving the Civil Court to pass such order as it may think proper and the question may thereafter, if necessary, be considered by this Court in Appeal or Revision and an authoritative ruling passed.

No. 4124—J. 420, DATED, BANGALORE, 29TH AUGUST 1893.

ORDER THEREON.—The Chief Court having refused to give their opinion upon an extra Judicial reference the proper course for the Inspector General of Registration to take is to instruct the Registrars to act according to the suggestion contained in the last para of the communication of the Chief Court referred to above.

T. ANANDA ROW,
Chief Secretary.

To—The Inspector General of Registration in Mysore.

PART I

REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 6th August 1893.

READ :—

Returns of Agricultural Statistics received from the Deputy Commissioners of Districts for the Revenue year ending 30th June 1892.

No. 2396-403—R. F. 37-92, DATED, BANGALORE, 6TH AUGUST 1893.

ORDER THEREON.—*Form A I.* (" *Total acreage* ").—The figures shown against item 1 of this return for the Mysore District are incorrect. The Deputy Commissioner's attention is invited to Circular No. 331-9—3, dated 6th April 1892, in accordance with which the entire area both surveyed and unsurveyed, should have been entered including the area of the Yelandur Jahgir. It is strange that this simple instruction should have been overlooked.

2. *Form A II.* (" *Classification of area shown in column 4 of A I.*").—The area of Forests exhibited in line 1 of statement A. II. is apparently incorrect in all the District Returns inasmuch as this differs from the figures furnished by the Inspector General of Forests. Correct figures should be obtained from the Forest Department and incorporated in future returns. The figures given in the first line should include State Forests, District Forests and Village Forests, the area of each of these classes of Forest being separately shown in a foot note appended to the statement. The total of items 1 and 2 (*viz.*, " Forests," and " not available for cultivation ") of this statement and of column 6 of statement Form D (*viz.*, " Revenue free tenures ") should correspond with the figures in column 3 of statement Form C (*viz.*, " not fully assessed including estates assessed at privileged rates "). Again the total of columns 3, 4 and 5 (*viz.*, " culturable waste other than fallow " + " current fallows " + " net area cropped during the year") should tally with the entries in column 4 of statement Form C (*viz.*, " area fully assessed").

3. Under the head 6 (*a*) an area of 17 acres is shown as having been irrigated by Government canal water in the Nelamangala Taluk of the Bangalore District. In the Tumkur District an area of 2,047 acres is shown under the same head, and also an area of 620 acres under 6 (*b*) " Private Canals." The Deputy Commissioners of Bangalore and Tumkur are requested to report particulars of the canals supplying irrigation to these areas in their Districts respectively. " Canals " should be here understood as meaning " Rive Channels."

4. The Deputy Commissioner of Shimoga is requested to verify the area (4,375 acres) shown in column 6 (*d*) and report whether this extent is really under cultivation from well water. Some explanation should be also furnished of the principle upon which the areas are reckoned for classification under this head. Are they all dry crop lands irrigated by well water, or are they lands the irrigation of which is supplemented by well water ?

5. In the return for the Mysore District Revenue Serial No. 29 (" Achka Return ") the area of cultivable waste is shown as 151,245 acres, while the area represented in the present return under column 3 of statement A I (" culturable waste other than fallow ") is 153,669. This discrepancy requires explanation. The Deputy Commissioner is informed that as already directed in para 3 of Circular No. 6916-23—Cir. 121, dated 16th September 1891, the figures in both the statements must tally or the difference should invariably be explained.

6. The total of the details in item 6 (" areas irrigated ") should also be the total of the details in item 7 (crops irrigated). But this is not so in the Bangalore, Kolar, Mysore and Kadur Districts. This is strange.

7. *Form A III.* ("*Acreage under crops*").—Mysore District.—Column 33 ("net area cropped during the year") of the statement for the Mysore District does not tally with column 5 ("net area cropped during the year") of Form A II ("classification of area"). This is due to the erroneous inclusion in the former of an area of 25 acres under chinchona cultivation in the Yelandur Jahgir, which should have been omitted as belonging to "Areas for which no returns exist" deducted in Form A I ("Total acreage").

8. *Form B* ("*wholesale prices of produce*").—The Deputy Commissioner of Hassan will report why no price was shown for maize in last year's return as it has been in the return under review.

9. The Deputy Commissioners of Bangalore and Mysore Districts respectively will report the data upon which the marginally noted prices have been returned, and they will further verify the same and report the result.

	Per maund of 80 lbs.
Bangalore. Jute ..	Rs 33—5—4
Mysore. Linseed ...	Rs 8—5—4

10. *Form C.*("*Incidence of the Land Revenue on Area and Population*").—The details of figures shown in columns 3 and 4, (*viz.*, "Area not fully assessed including estates assessed at privileged rates," and "Balance of area fully assessed") of this statement should be given in a foot note so as to indicate their agreement with figures in items 1 to 5 of statement A (II) (*viz.* (1) "Forest" (2) "not available for cultivation" (3) "Culturable waste other than fallow" (4) "Current fallows" (5) "net area cropped during the year") as explained in para 2 above.

11. With a view to secure uniformity in the Forms of the Returns in question, the forms received from the Government of India with Assistant Resident's Nos. 3836—36-88 and 2531—36-88, dated 29th November 1892 and 22nd July 1893 respectively will be reprinted and 10 copies supplied to each of the Deputy Commissioners for adoption.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioners of Districts.

The Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 20th August 1893.

No. 3752-60—R. 416, DATED, BANGALORE, 20TH AUGUST 1893.

ORDER.—The following instructions are issued in supersession of those contained in Government Proceedings No. 2594-601—Cir. 24, dated 14th May 1892:—

I. No land should be acquired by any Department, except through the Deputy Commissioner of the District in which it is situated.

II. When a Municipality or any Department of Government wishes to acquire land for any public purpose, it shall send a requisition to that effect to the Deputy Commissioner intimating the situation and area of the land required and the purpose for which it is required.

III. The requisition may include a limit of price, if the requisitioning authority considers it necessary to fix one.

IV. On the receipt of this intimation, the Deputy Commissioner should make the necessary enquiries. If the probable price which the Deputy Commissioner considers it necessary to pay, is accepted by the requisitioning authority and if the Deputy Commissioner wishes to put the Land Acquisition Act in force, he shall report the matter for the orders of Government, with full details as regards the description, boundaries and area of the land required, and the amount it is likely to cost.

V. On the receipt of the orders of Government thereon, he may proceed to acquire the land.

VI. If the Deputy Commissioner considers that the land required cannot be had within the limit, if any, fixed by the requisitioning authority, he should intimate the same to the Department concerned and await its further wishes in the matter.

VII. As a rule, all lands required for Government purposes should be acquired under the Land Acquisition Act, and private negotiation should be resorted to only in cases in which there is not the slightest doubt about the title of the owner with whom the Deputy Commissioner purposes to deal.

VIII. Deputy Commissioners should, under no circumstances, take possession of the land before its price is settled or the provisions of the Land Acquisition Act are put in force.

IX. Deputy Commissioners should report to Government particulars of lands acquired without the previous sanction of Government and without payment.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 28th August 1893.

No. 3845-53—R. F. 157-92, DATED, BANGALORE, 28TH AUGUST 1893.

ORDER THEREON.—Recorded.

2. In 136 out of 206 cases, loans have been granted for sinking wells in wet and garden lands, and the rate per acre for repayment has in 85 cases exceeded Rs. 5. Mr. Krishnaiengar's suggestion to reduce the amount of loan at the time of issuing Loan Orders in cases where it is not possible to bring the annual instalment to the limit of Rs. 5 per acre even by extending the time for repayment to 30 years, is approved.

Subject No. 310 discussed at the meeting of the Dasara Representative Assembly held in October 1892.

No. 4012-9—R 448, DATED, BANGALORE, 31ST AUGUST 1893.

ORDER THEREON.—Para 27 of Section XX of the Land Revenue Rules enacts that the Amildar shall not register the purchaser's name in the accounts for two months after the expiry of the period allowed for appeals by the Land Revenue Code. This was represented by the Representative Members from the Kunigal Taluk to be too long a period for a purchaser to wait in suspense, and that it should therefore be reduced to one month.

2. Under the provisions of Section 212 of the Land Revenue Code, Deputy Commissioners sometimes admit appeals even after the expiry of the prescribed period, and when once a purchaser is put in possession of the land, it becomes difficult to turn him out. The period of two months has been fixed with due regard to all such cases, and the Government consider that no amendment of the existing rule is called for.

T. ANANDA ROW,
Chief Secretary.

To—The Deputy Commissioner, Tumkur District, for communication to the Representative Members concerned.
The Deputy Commissioners of other Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 23rd August 1893.

READ THE FOLLOWING PAPERS —

(1). Letter No. 1166, dated 12th June 1893, from the Superintendent, Mysore Revenue Survey, to the Chief Secretary to the Dewan of Mysore.

I have the honor to forward the marginally noted papers on the subject of the proposed revision of the assessment of the Channapatna Taluk of the Bangalore District.

1. Report No. 1056, dated 20th April 1893, with 3 accompaniments.
2. Letter No 1057, dated 20th idem, to the Deputy Commissioner, Bangalore District.
3. Letter No. 3457, dated 27th May 1893.

2. The correspondence ends with letter No. 3457 of the 27th May 1893 from the Deputy Commissioner to my address, upon which I feel constrained to make a few remarks. At para 2 of his letter the Deputy Commissioner alludes to his want of practical acquaintance with the system of assessment followed in the Province, observing at the same time that neither my letter nor its enclosures show on what data the proposed rates of assessment have been founded nor how the rates range. The Deputy Commissioner being, as he admits, quite unacquainted with our system of classification which, as is well known, is the basis of the assessment, very naturally makes such remarks as the above, but Government, I feel sure, will experience none of the difficulty felt by the Deputy Commissioner and will not expect me, in each and every Settlement Report, to recapitulate the principles of a system of classification which is as much a recognized branch of the General Plan of Survey and Settlement, and as purely technical an operation as the Measurement itself.

3. The figures at para 13 are stated not to tally with those at para 15 of my report. This is quite true and I no doubt should have explained in the first instance that a sum of Rs. 232 under head of "Vahivat Jasti" had to be excluded from the collections at paras 15 and 20, as not being exclusively assignable to either dry, wet or garden. The difference is small and in no way affects the questions raised by the Deputy Commissioner.

4. Admitting, for the sake of discussion, that the Deputy Commissioner is right in concluding that each agricultural family of 5 souls has about $7\frac{1}{2}$ acres of mixed land under cultivation, what shall I say with reference to the astonishing assumption that the proposed rates represent one-third of the gross produce and the necessarily incorrect deductions from this illusion? Mr. Shujaet Ali however seriously states that, in supposing the proposed rates to represent one-third of the gross produce, he is following the "Madras principle." I can only hope that for the sake of the Madras system Mr. Shujaet Ali is making some mistake, for I know and I am quite prepared to prove that in Mysore the Survey rates represent much nearer *one-twentieth* than one-third part of the gross produce. The idea of a family subsisting for a whole year upon a gross income, including labor, of Rs. 18—13—1 is too absurd to be entertained and I think such a conclusion is in itself sufficient to condemn the premises upon which it was arrived at.

5. At para 6 of his letter, the Deputy Commissioner assumes that a *remedy* is required for a Settlement just newly proposed. It cannot of course be expected that I should, in one breath, as it were, propose a revised assessment and its remedy. I need scarcely say therefore that the methods of relief proposed by the Deputy Commissioner are absolutely unnecessary, indeed any Settlement which required such palliation could be nothing more or less than a gross failure.

6. It has struck the Deputy Commissioner as it did myself that the proposed assessment of the wet and garden lands might have been higher. On this point

I would draw attention to para 24 of my report. In addition to what I there stated, I may observe that, for the most part, the gardens in the Taluk under report are expensive as regards formation, maintenance and working, being chiefly dependent upon irrigation by lift. Of course the owners would pay much higher rates than I have proposed rather than abandon their gardens, but this is unsound reasoning and cannot justify a departure from the standard of garden assessment adopted in neighbouring settled Taluks. The proposed dry rates are fully low and the increase resulting from their adoption is not more than the newly discovered excess area would justify. The Survey rates are in fact lower than the old rates. In recommending the proposed assessment for the favorable consideration of Government, I must of course rely upon the facts and figures set forth in my Report, but so far as my opinion, based upon experience and local knowledge, is of any value, I can assure Government that the proposed rates instead of being regarded, as the Deputy Commissioner supposes, as a hardship, will be gladly accepted by the raiyats.

7. I had intended to have given out the new rates last month but the accounts were very backward, and I cannot proceed with the introduction of the Settlement until probably next September.

(2). Letter No. 1056, dated 20th April 1893, with 3 accompaniments from the Superintendent, Mysore Revenue Survey, to the Chief Secretary to the Dewan of Mysore.

I have the honor to submit the following proposals for the revision of assessment of the Channapatna Taluk of the Bangalore District.

2. A sketch map of the Taluk, as well as a very useful and exhaustive report by the Classing Officer, will be found appended. I will not needlessly swell this report by following Mr. Appu Rao in his description of the Taluk, especially as I concur generally with him in the conclusions he has arrived at regarding the general prosperity of the tract and the condition of the people.

3. The Taluk, reported on by Mr. Appu Rao as Closepet, is now the Channapatna Taluk, with Head-quarters at Channapatna and a Deputy Amildar at Closepet. It is divided up into the following Maganis or ancient sub-divisions :—

Number	Maganis.	Government Villages	Kavals.	Forests	Plantations.	Alienated Villages.	Total	Remarks.

10	Bidadi	...	...	1	...	4	5	Settled.
	Total.. ...	234	1	9	2	27	273	

4. For the immediate object of the present report I am dealing exclusively with the 234 Government villages. Some remarks, however, will be found further on under the head of "how divided up by Survey" on the numerous and extensive Forests which have been marked off in this Taluk.

General Description.

5. Leaving out of my description the Bidadi Magani settled long ago in 1879, when it formed part of the Magadi Taluk, the tract under report may be described as fringed on the north and north-west by a broken country of rocks, scrub jungle and ravines. Presently however the country opens out into a comparatively flat and productive tank-studded expanse in which a fairly dense population is accommodated in substantial well built villages, many of the houses in which are tiled. As might be expected from such a conformation of country, the drainage is almost entirely from north to south, with a turn eastward. Two of the streams, the Arkavati and the Kanva, are very important and indeed constitute the chief source of wealth in the tract under report, their margins more or less wide as the country is confined or open, being occupied by quite a profusion of mulberry gardens, with here and there valuable cocoanut gardens. The margin of the Kanva river is more open and consequently richer than that of the Arkavati. The Kanva river is dammed near Abbur and made to feed several good tanks which thus rise to the level of river fed channels and have been classed accordingly.

Means of communication.

6. In its means of communication the Taluk is peculiarly fortunate, as the Railway from Bangalore to Mysore almost bisects it, from north to south. Including Bidadi there are four Railway Stations within the confines of the Taluk. The Bangalore-Mysore road running almost parallel with, and quite close to, the Railway joins all these Stations. In addition to this road Closepet has branch roads to Magadi and Kankanhalli respectively. From Channapatna a branch road leads off and joins the old Mysore-Bangalore road *vid* Malvalli at Satnur. Another branch road from Channapatna, intended to join the Malvalli-Bangalore road at Halgur, has been partly completed. The early completion of this road strikes me as very important, both in the interests of the Taluk under report and of the Malvalli Taluk. What with its Railway, its made roads, as above described, and numerous cart tracks, available during the greater part of the year, the tract under report possesses facilities of communication of a very high order.

Climate.

7. The average annual rain-fall is supposed to be about 35 inches. I think this estimate, in the absence of my very accurate statistics, may be accepted as fairly correct. During the Famine years the rain-fall annually was only from 9 to 12 inches. As I shall show further on, the Famine undoubtedly severely affected this Taluk and in this fact I recognize stronger proof of the somewhat precarious and uncertain character of the climate than can be afforded by results of rain-fall gauged at one spot and, to say the least, not too carefully registered. The annual rain-fall I should consider to be rather unequally distributed, it being somewhat better and more certain in the hills to the north-west than elsewhere. On the whole I should think the Channapatna Taluk was about as well off as the Bangalore Taluk, as regards rain-fall, although the latter Taluk is credited with a few inches more than Channapatna.

Soils, crops.

8. The soils in the dry crop lands are of the red and sandy description, in some places very shallow, but in the wet and garden lands they improve very considerably. Nowhere however do the soils rise to the class of black or cotton soil. Mr. Appu Rao gives a description of the soils at para 12 of his report. It is to be observed that sugar-cane is somewhat largely raised in the

Bhairmangal Magani. The wet or rice lands, without being very extraordinary, are fairly good, but the distinguishing feature of the Taluk is undoubtedly the mulberry and cocoanut cultivation already alluded to as carried on on the banks of the Arkavati and Kanva rivers where the conditions essential to this kind of cultivation are very favorable.

Markets, trade, &c.

9. There are only 5 local markets as stated by Mr. Appu Rao at para 14 of his report, at which weekly Bazaars are held. At none of these local markets is the trade very important. The Railway, however, is largely used, and the value of the raw silk exported is estimated at about 3 lakhs of rupees. Ragi and other food grains and cocoanuts are exported, while jaggory, rice, salt and piece goods are imported. Accurate details of export and import are not forthcoming.

General condition of the people.

10. Summing up the result of my observations, I should say that we are dealing with a fairly prosperous Taluk. The rate of wages is abnormally high, owing to the presence of the Railway and the effect it has had in shortening the distance to Bangalore. Mr. Appu Rao alludes to the large number of important public works in progress but this can only be a temporary factor in keeping up the rate of wages. The people occupy, from a comparative point of view, very good houses and their health is said to be excellent. I have no doubt such is the case but I am equally certain that there must be several exceptions to the rule, notably in the country bordering Kankanhalli to the south-east. All these matters must however be regarded from a comparative point of view and, taken as a whole, Channapatna in my opinion compares favorably with neighbouring Taluks in the advantages it enjoys, in the points of climate and means of communication, and, consequently, in its agricultural prosperity.

Revenue Survey Statistics.

11. During classification statistical information was gathered as far as possible, village by village, and has been compiled as follows:—

The information given is for the 234 Government villages only and is consequently very useful in one way, as applying to the villages concerned and to no others but for purposes of comparison, it is not so useful, as the Census figures of 1881 and 1891 are, so far as any published results go, available for the whole Taluk only and not in detail. Leaving out the area of Forests, Kaval and Inam villages, the population comes to a little over 260 per square mile and compares as

1. Magadi	...	158
2. Anekal	...	272
3. Nelmangal	...	257
4. Mandya	...	182
5. Malvalli	..	217

per margin with adjoining Taluks. If the occupied area alone be taken into account, there are 538 souls to the square mile. This last figure is decidedly favorable, as it denotes a higher population to the occupied square mile than in any Taluk of the District excepting Bangalore. The number of carts is considerable and compares favorably with the same figures for the adjoining Taluks of Anekal, Magadi and Mandya but, strange to say, the number of carts in the Malvalli Taluk is greater than in Channapatna or any of its adjoining Taluks. I can only suppose that the presence of the Railway enables the raiyats to dispense with a certain number of their carts. The statistical information gathered, however, indicates on the whole considerable agricultural prosperity.

12. Like all other Taluks of the District, or indeed of the whole Province, this Taluk has never been measured, much less classed, until the present Survey. How very casual and perfunctory the supposed measurement and record must have been in the old days may be judged from the following statement which shows excess, as found by Survey, in the occupied area :—

Past revenue management.

Description	By old accounts Acres.	By Survey. Acres.
1	2	3
Dry Crop	54,950	78,868
Wet	4,341	4,827
Garden	6,118	8,115
Total...	65,399	91,810

The excess discovered is of course very serious but the same state of things is found everywhere and I do not wish to make it "*per se*" the grounds for adding proportionately to the Government demand, although, in strict justice, such a course might be right. I am glad to find that the excess found in wet and garden lands is not so great as in dry lands. The distinction in the old accounts between dry and wet and between dry and garden is pretty clear but between wet and garden the supposed distinction is very puzzling. A large number of gardens have been formed and no account whatever has been kept of them, while, on the other hand, some of the old bearing and well-known gardens have been assesed with undue severity, regardless of the source and supply of irrigation. As a consequence great inequality pervades the old assessment and I feel pretty certain that the Survey rates will be welcomed and will prove very beneficial. The rates quoted by Mr. Appu Rao at para 19 of his report are, I need scarcely say, in the absence of any correct system of measurement, purely fictitious. The only purpose they serve is to show the general idea which was entertained of appropriate rates of assessment for dry, wet and garden respectively. These rates, it will be seen on reference to Mr. Appu Rao's para 19, are, especially in the case of wet lands, quite as high as the Survey rates given further on.

13. The subjoined statement is intended to show how the lump sum taken out of the Taluk as assessment was distributed Maganivar. The collections under dry and wet (including garden, for no satisfactory distinction between the two can be made) are shown in juxta-position with the newly ascertained Survey area and the average rate is thus deduced:—

Number.	Magani	Dry Crop.			Rice and Garden combined.		
		Acres by Survey.	Old Collections	Average Rate	Acres by Survey	Old Collections	Average Rate.
1	2	3	4	5	6	7	8

	Total.....	78,868	47,555	0 9 8	12,942	52,331	4 0 8

The above figures, without perhaps being of any very great use for our present purpose, are somewhat interesting. The highest dry assessment was, as seems only right, high in the Maganis of Closepet and Channapatna, but it is somewhat surprising to find the highest wet and garden assessment in the Magani of Makli. In that Magani not only the gardens but the ordinary wet lands are relatively very highly assessed and the new assessment will afford very considerable relief. As I have already stated, however, the incidence of the old assessment as shown in the above statement will not assist us very much in arriving at suitable rates. The system of assessment, alluded to by Mr. Appu Rao at para 19, formerly prevailing, of bringing to book fully planted gardens will explain the high garden assessment in Makli but it will not explain the high assessment paid on ordinary wet land. Regarded as a whole, the lump assessment taken from this Taluk cannot be considered at all heavy, the defects being not in the amount but in the incidence or distribution of the old assessment.

14. The next statement shows how the tract under report has been measured up by Survey :—

How divided up by Survey.

Description.	Area of Government lands.		Area of Inam lands.	Total.		Grand Total.
	Occupied.	Waste.		Occupied.	Waste.	
1	2	3	4	5	6	7
Dry Crop	78,868	6,160	6,108	84,976	6,160	91,136
Rice	4,827	104	924	5,751	104	5,855
Garden	8,115	60	267	8,382	60	8,442
Total.....	91,810	6,324	7,299	99,109	6,324	105,433
Area of unculturable waste including village site, &c.						99,183
Area of alienated villages						28,230
Area of State Forests, Plantations and Kavals						40,202
Total area of the whole Taluk, *i. e*, 427 square miles						273,048

The first thing that must strike any one is the small area of assessed land still left unoccupied. The proportion of dry land still available for cultivation is very small and only 104 acres of wet and 60 acres of garden are unoccupied. It is not worthwhile enquiring into the causes of the wet and garden lands being unoccupied, they probably were resigned owing to unforeseen causes not bearing at all upon the question of assessment. The area of " kharab" or unarable land in the 234 Government villages is 99,183 acres, of which a considerable portion consists of tanks, village sites, roads and so on. The newly demarcated Forests have taken up, in round numbers, some 40,000 acres and have been measured and demarcated quite separately from the Government villages under report. The grazing land available to the raiyats has thus of course been greatly curtailed by the reservation of all this Forest land, especially in the northern half of the Taluk. In the southern and more level half of the Taluk the land left for pasturage is very small in extent, a great deal of land having been taken up for cultivation. There is nothing very exceptional in the dearth of grazing in this Taluk, excepting as regards the area taken up for reserved Forests, as there is a similar cry in almost every Taluk in certain parts where the country is thickly populated; it is in fact a question of cultivation " versus " grazing, and as the former certainly cannot be restricted, the area of the latter must necessarily be diminished. As will be seen further on, however, the realizations from the sale of grazing, Rs. 4,273 in 1891-92, have been by no means very small. In Malvalli on about two-thirds of the area saleable in Channapatna, only Rs. 847 were realized as grazing in 1890-91. The value of waste lands in Channapatna is evidently relatively very high, for the difference can scarcely be wholly ascribed to good or bad management.

Past Collections.

15. We now come to the realizations under the head of Land Revenue during past years. The subjoined statement shows these for the last 25 years. Prices of the staple grains and products have, as being more convenient, been shown in juxta-position with the collections:—

In column 2 under the head of "Maji Bijwari" the Amildar has, for some unexplained reason, entered converted acres instead of "khandis." The acres thus converted from "khandis" do not quite agree with the figures given by me at para 12 but the difference is unimportant. Generally speaking the old Bijawari is not reliable for the purpose of studying the increase and decrease of cultivation, it is far better to consider the actual realizations. No remissions appear to have been at any time granted and yet in 1876-77 there was a very serious falling off in the realizations, indeed for several years subsequent to the Famine it is evident that the collections were far from normal and it is only since 1886-87 that, thus judged, the Taluk may be said to have fairly recovered itself. It may have been considered by the Revenue authorities at the time that as the Taluk contained a good deal of hill and jungle, it was not so much affected by the Famine as the essentially Maidan tracts and so no remissions were granted, but I have little doubt myself that the Taluk *was* pretty seriously affected, as the collections clearly show. The first year given in the statement is 1867-68. That was a time when prices ranged very high, 1865-66 being the year of the highest prices and highest revenue in the Province, ever known until very recently. In 1865-66 there was some scarcity but the raiyats did not lose their agricultural stock, as in the great Famine, and high prices induced speculation, so that much land was taken up. The losses during the Famine both in cattle and labor rendered quite abnormal the ordinary relation between high prices and extended cultivation which generally go hand in hand. With all their stock gone, the highest prices in the world were useless to the raiyats and could not induce speculation. The mark of the Famine on the whole Taluk under report, as judged by years of bad revenue, is perfectly clear and is stronger proof than if remissions had been granted.

16. I now come to the practical part of this report and propose that for the purposes of assessment the villages under report be divided into groups as below :—

Proposed Grouping of villages for assessment.

Group.	Number of Villages.	Maximum Dry Rate	Maximum Rice Rate.		Maximum Garden Rate.
			Ordinary.	River channel source.	
1	2	3	4	5	6
		Rs. As. P.	Rs. A. P.	Rs. A. P.	R. A. P.
I	73	2 2 0	8 0 0	9 0 0	10 0 0
II	103	1 14 0	8 0 0	9 0 0	10 0 0
III	58	1 10 0	8 0 0	9 0 0	10 0 0
	234				

In deciding upon the Maximum rates, as above shown, I have had to bear in mind that all the adjoining Taluks excepting Kankanhalli have been already settled. The rates adopted and working successfully in those adjoining Taluks must, in the absence of circumstances of a very special character existing in Channapatna, be my guide in the latter. Although Channapatna is undoubtedly a comparatively well-to-do Taluk, there is nothing which would induce me to propose for it rates disproportionately high as compared with those adopted in adjoining Taluks.

The 1st group of 73 villages are either quite close to or situated on high roads leading direct to Railway stations.

The 103 villages of group II have some defect as compared with the villages of group I; they are either more distant from, or possess no road leading direct to, Railway Stations.

The 3rd group of 58 villages contains some villages in the hills towards Magadi and some in the comparatively outlying country bordering on Kankanhalli. All the rates proposed fit in very fairly with those adopted in adjoining Taluks. Thus, as regards group I, the maximum dry rate in Bidadi was rupees 2—4—0; in Mandya it was Rs. 1—14—0. The villages of Channapatna between Bidadi and Mandya with a maximum dry rate of Rs. 2—2—0 fit in as nearly as possible. The second group rates are deduced from those of group I and require no particular remark. Many of them adjoin the still unsettled Taluk of Kankanhalli. As regards the third group villages some adjoin Magadi where the dry maximum rate was Rs. 1—12—0 and others adjoin Malvalli where the maximum dry rate was Rs. 1—6—0. The rates now proposed for the third group fit in with those adopted for Magadi and Malvalli at a difference of 2 annas and 4 annas respectively. This is quite near enough and practically represents a difference of not more than one or two annas per acre in the deduced rates.

I have made no difference for the groups in the maximum rates for wet and garden, the produce of which is less bulky than in the case of dry lands.

17. The proposed rates give the following estimated results :—

Result of proposed rates on occupied land.

Group.	Number of Villages	Dry Crop			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate	Acres.	Assessment.	Average rate.

				Rs. A. P.			Rs. A. P.			Rs. A. P.			Rs. A. P.
I	73	23,521	21,921	0 15 1	7,631	12,789	4 13 9	3,896	15,787	4 0 10	29,778	50,497	1 11 2
II	103	33,930	27,491	0 13 0	1,595	6,807	4 4 3	2,795	10,612	3 12 9	38,320	44,910	1 2 9
III	58	21,697	15,252	0 11 3	601	2,364	3 14 11	1,424	4,742	3 5 3	23,712	22,358	0 15 1
3	234	78,868	64,664	0 13 1	4,827	21,960	4 8 9	8,115	31,141	3 13 5	91,810	1,17,765	1 4 6

Average rates of Re. 0—13—1, Rs. 4—8—9 and Rs. 3—13—5 for dry, wet and garden respectively must be admitted to be very moderate for a Taluk like Channapatna. That the garden average rate should be lower than the average wet rate is explained by the mixed character of the former, some of the gardens being little better than dry crop land, while others are very fine indeed. My proposed rates for garden range from Rs. 1—4—0 to Rs. 10 per acre, the rates for wet or rice land are within a smaller compass than the garden rates ranging roughly from about Rs. 2 to Rs. 7 per acre according to the relative value of the soil and water-supply.

18. The next statement shows the extent and assessment of waste assessed land available for cultivation :—

Group.	Villages.	Dry Crop.			Rice.			Garden.			Total.		
		Acres.	Assessment.	Average rate.	Acres.	Assessment	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
				Rs. A. P.			Rs. A. P.			Rs. A. P.			Rs. A. P.
I	73	1,401	1,130	0 12 11	63	229	3 10 2	25	75	3 0 0	1,489	1,434	0 15 5
II	103	3,260	2,327	0 11 5	34	135	3 15 6	19	70	3 10 11	3,313	2,532	0 12 3
III	58	1,499	991	0 10 7	7	24	3 6 10	16	52	3 4 0	1,522	1,067	0 11 3

It is probable that the above limited area of assessed waste may be still further curtailed at the settlement owing to the necessity of assigning some of it as free grazing. Some of it will, I have little doubt, be applied for for cultivation and, judging from precedent in far less favored Taluks than Channapatna, it is likely that fresh lands from large Survey Numbers, still unassessed, will be applied for, in which event I shall make arrangements for having them measured and classed. The quality of the assessed waste, it will be observed, is considerably inferior to that of the lands in occupancy.

19. The extent and assessment of the Minor Inam lands is shown below :—

Group.	Villages.	Dry Crop.			Rice.			Garden			Total.		
		Acres.	Assessment.	Average rate.	Acres.	Assessment.	Average rate.	Acres.	Assessment	Average rate.	Acres.	Assessment.	Average rate.

The Inam lands, judging from the assessment, are of very good quality.

20. Finally the result of the proposed rates for the whole area Government occupied, waste and Inam is shown in contrast with the past collections in each group:—

Group.	Villages.	By old accounts.		By Survey.							
				Government occupied.		Government waste.		Inam.		Total.	
		Bijwari into Khandis.	Collections.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.	Acres.	Assessment.

I	73	3,985	42,322	29,778	50,497	1,489	1,434	3,038	5,527	34,305	57,458
II	103	3,407	39,309	38,320	44,910	3,313	2,532	2,506	3,290	44,139	50,732
III	58	1,819	18,487	23,712	22,358	1,522	,087	1,755	1,655	26,989	25,080
3	234	9,191	1,00,118	91,810	1,17,765	6,324	5,033	7,299	10,472	105,433	1,33,270

Grazing.

21. The grazing realizations last year amounted to Rs. 4,273 which I consider a large amount, not likely to be exceeded under the proposed settlement, especially as a considerable area will have to be assigned as free grazing.

One anna Local Cess.

22. The one anna Local cess brought in, in 1891-92, Rs. 6,820—1—0; under the proposed settlement the amount will be Rs. 7,360 on Government lands and Rs. 654 on Minor Inam lands, in all Rs. 8,014.

Irrigation Fund.

23. The annual contribution to the Irrigation Fund will be Rs. 3,123.

General results of proposed settlement.

24. Excluding both Local Fund and Grazing, the land revenue of 1891-92, which was Rs. 1,00,118, becomes Rs. 1,17,765, an increase of Rs. 17,647 or nearly 18 per cent. The remuneration of Patels and Shanbhogs will cost probably about Rs. 7,000, while the contribution to the Irrigation Fund will be Rs. 3,123. In round numbers Rs. 10,000 of the increase of Rs. 17,647 will go towards the two above objects, leaving a little over Rs. 7,000 as the net gain from the settlement. Considering that the Raiyats will be relieved of grain payments to the Shanbhogs and how the status of the Patels, themselves large landholders, described by Mr. Appu Rao at para 17 of his report as inferior to that enjoyed by Patels elsewhere, will be improved, the proposed settlement must be considered very liberal. Its distinguishing features are the equalizing of the very erratic garden assessment under the old system and the bringing to book the large excess found in dry lands. It may perhaps be thought that in sweeping away the inequalities of the old wet and garden assessment, some increase might still have resulted in my assessment of those descriptions of land, the more especially as the contribution to the Irrigation Fund has been merged in the Survey assessment, but I found myself unable to fix my rates higher without, so to speak, abandoning the standard which had guided me in assessing neighbouring Taluks. No doubt I could have fixed higher rates which would have been readily enough paid because the old rates were still higher, but I hope Government will be of opinion that in adopting what I consider fair, moderate and proved rates, I have acted more wisely than in endeavouring to obtain an increase simply because the Raiyats would be willing to pay it.

25. In addition to the sketched map and Classing Officer's Report alluded to at para 2, I append the usual Classwar statement as well as a list of Inam villages showing the kind of Survey applied to each.

Appendices.

26. The present report has been unavoidably delayed owing to the difficulty I have experienced in obtaining certain information from the Amildar. I am anxious however, late in the year as it now is, to proceed with the introduction of the settlement and hope to commence operations about 5th May next.

(3) Report on the Channapatna (Closepet) Taluk classed by the M and E Establishments, Mysore Revenue Survey.

The Closepet Taluk is bounded on the north by parts of the Magadi and Bangalore Taluks, on the east by the Kankanhalli Taluk, on the south by the Malvalli Taluk and on the west by the Mandya, Kunigal and Magadi Taluks. It is compact in shape, the extreme length north and south being 34 miles and the extreme breadth east and west 21 miles. The total area of the Taluk is 219,649 acres or 343 square miles, of which 124,095 acres or 194 square miles is culturable.

2. According to the Census of 1891, the Taluk contains a population of 99,805 souls, being 291 per square mile of total area and 514 per square mile of culturable land.

3. The Taluk is divided into ten Hoblis and contains 278 villages, Government and Inam, as shown below:—

No.	Hoblis.	Government Villages.	Inam Villages.	Total.	Remarks.
1	Closepet	21	...	21	
2	Makali	28	6	34	
3	Bidadi	16	5	21	
4	Bhairmangal	24	4	28	
5	Kungal	30	2	32	
6	Hongasr	25	1	26	
7	Virupakshpur	46	6	52	
8	Channapatna	16	1	17	
9	Mallur	16	2	18	
10	Mudigere	28	1	29	
	Total.....	250	28	278	

Of these, the Bidadi Hobli having been already settled, the classing operations were carried on only in the remaining 9 Hoblis.

4. These ten Hoblis are divided into two charges, one being under the Amildar with Head-quarters at Closepet, and the other under the Deputy Amildar

of Channapatna, with Head-quarters at Channapatna. The Deputy Amildar's charge consists of three Hoblis, *viz.*, Channapatna, Mallur and Mudgere and the remaining 7 Hoblis form the Amildar's charge. A glance at the map which accompanies this report shows that this is a very convenient arrangement, and on a reference made by this Department, Government have ordered, 1st that the Channapatna Sub-Taluk and the Office of the Deputy Amildar be abolished, 2nd the Taluk be called Channapatna Taluk and the Head-quarters be shifted from Closepet to Channapatna and 3rd that the Amildar be in sole charge of the Taluk. It is a question, however, whether the Amildar alone can efficiently manage the whole Taluk and whether it will not be more convenient to retain the Deputy Amildar, make Closepet his Head-quarters and form the adjacent Hoblis into his charge.

5. The Taluk may be divided into two parts with regard to its physical features. The upper or northern and north-western part is traversed by several ranges of hills, contains large tracts of waste land more or less covered with scrub jungle, and is generally devoid of tanks and other artificial irrigation works. The southern and south-eastern parts of the Taluk are plain, contain more populous villages and are literally studded with tanks, some of which are of considerable importance. Here, moreover, almost all the available land has been taken up and very little grazing land is left for cattle.

6. Closepet, the present Head-quarters of the Taluk, is situated in a picturesque position, surrounded on all sides by bare, granite topped hills, rising abruptly from the surrounding country. Two rather broken ranges of hills running north and forming the boundaries, as it were, between the Bidadi and Kasaba Hoblis, and the Kasaba and the Makali Hoblis, are a sort of continuations of this group round Closepet; another branch runs off towards the west and the south-west and divides the Closepet and Makali Hoblis from the open country round Channapatna, while a fourth irregular collection of hills runs into the Kunagal Hobli to the east of Closepet. On the borders of the Taluk towards the west is another short range, serving as a branch to the range running west of Closepet. All these make the northern half of the Taluk more picturesque in appearance, less accessible, and less productive than the southern half.

7. The Arkavati river taking its rise in the hills near Nundydroog and passing through the Bangalore and Magadi Taluks enters the Closepet Taluk about the north-west corner, runs a rather direct course first south as far as the town of Closepet, then due east and finally goes into the Kankanhalli Taluk. Another stream called the Kanva river takes its rise from a tank in the Magadi Taluk and enters the valley between the Makali and one of the two northern ranges of hills in the north-west. It is there joined by another stream; the combined stream now known as the Kanva river runs a longer and more devious course south and south-east and finally empties itself into the Shimsha or Maddur river on the frontier of the Malvalli Taluk. These two streams, the Arkavati and the Kanva, are very beneficial to the raiyats of the Taluk. Along the margin of the Arkavati, thousands of mulberry gardens, each only a few guntas in extent, are maintained, irrigated by lifts from the stream. The margin on both sides of this river is however very narrow owing to the steepness of the banks and the hilly nature of the country through which it passes. The Kanva river, on the other hand, flows through less rugged country in the beginning and leaves a large margin which is similarly utilized for forming mulberry gardens, and lower down is dammed up at Abbur and made to feed several large tanks in the Channapatna, Mallur and Honganur Hoblis. On the wide margins of this stream in the southern part of the Taluk, numerous valuable cocoanut gardens are formed, in addition to the large number of mulberry gardens.

8. Excluding from calculation the scanty rain-fall in the famine years 1876, 1877 and 1890, when 9 to 12 inches of rain fell, the average rain-fall appears to amount to about 35 inches. The northern half of the Taluk, owing to the presence of hills and forests, gets more rain, and the Head-quarters of the Taluk, Closepet, is

situated in this range. In the more open parts, south and south-east, the average is probably less, but no accurate statistics of the rain-fall there are available.

9. The nature of the country in the northern half of the Taluk except the Bhairmangal Hobli does not admit of large tanks being built. Hence that tract contains very few tanks and those few are comparatively small ones. The Bhairmangal Hobli is a little more open and here one meets with a number of small tanks. In the northern half of the Taluk are very large reservoirs, some of which are as already stated fed from channels led from the Kanva river. The Channapatna, Mallur, Mallurpatna, Honganur, Santemagenhalli, Bandur, Suleri, Mayinayakanhalli and Patlu tanks are of considerable size and most of them have lately been improved by Government at a heavy outlay. In some few places advantage is taken of the presence of channels intended as feeders to large tanks, for irrigation purposes, but generally speaking it may be said there is no direct irrigation from channels. The lands under the Mallur and Mallurpatna tanks are however popularly believed to be as valuable as those under the Cauvery channels and when sold fetch equally handsome prices.

10. A large portion of the jungle in the northern half of the Taluk has been reserved by Government and several plantations have also been formed. The jungles however contain bamboos and trees fit only for fuel, large quantities of which are sent to Bangalore by rail for consumption there on account of this reservation of Forests and Plantations; in the northern half, the grazing land is not as extensive as the raiyats would wish it to be, while in the southern half almost the whole available area has been taken up for cultivation and scarcely any waste land left for pasturage.

11. The Taluk is very well off in respect of communications. The Railway from Mysore to Bangalore runs through it north and south and there are four Stations within its limits. There is also the Mysore-Bangalore road running almost parallel to the Railway. Cross roads branch off from Closepet, one to Kankanhalli and another to Magadi. A third road branches off from Channapatna and joins the old Mysore-Bangalore road *viâ* Malvalli at Satnur. Another road also branching from Channapatna and intended to join the Malvalli-Bangalore road further down at Halagur has been partly made. The rest is traced, and does not appear to present many Engineering difficulties. If completed, it will open up the south-eastern part of the Closepet Taluk and will besides enable the raiyats of Halagur Hobli, Malvalli Taluk, to export their surplus produce to the Railway Station at Channapatna by a direct road. Cart tracks along which carts pass in fair weather, lead from almost every village to the nearest Railway Station.

12. The soil in the dry crop land is generally red, sandy and very frequently shallow and rocky. In lands below tanks superior soils are met with and where mulberry gardens are made, the soil naturally good is being continually enriched by the periodical application of manure and admixture of alluvial deposit from tank beds. The usual dry crops, *viz.*, ragi, avare, togari, gram and oil-seeds are grown in dry crop lands. Ordinary and better kinds of rice are grown under tanks. In the Bhairmangal Hobli sugar-cane is largely grown. It is probable sugar-cane is also grown under the large tanks near Channapatna, but perhaps owing to a succession of bad seasons and several of the tanks being still in the hands of the Public Works Department, it was not met with to such an extent as one could have expected. There are some "Pân well" gardens near Channapatna. The banks of the Arkavati and Kanva rivers are studded with mulberry gardens as already mentioned. Indeed, every conceivable bit of land suitable for it and commanding a permanent water-supply either from wells or from streams is converted into a mulberry garden. Along the lower course of the Kanva river, numbers of coccanut gardens are formed. The soil is well adapted for the purpose and water is tapped only a few feet from the surface. The trees are watered only when they are young. When they arrive at maturity, they are left to depend upon rain-fall and subsoil

moisture, resembling in this respect, the gardens in the Tiptur and Arsikere Taluks.

13. Channapatna is noted for the manufacture of lacquered toys and very superior steel wire for musical instruments. There are no other manufactures worth the name in the Taluk. Even kambls and rough cloths used by the poorer classes are imported from the neighbouring Taluks. A large quantity of raw silk is produced and exported to various parts of India. The Amildar estimates the total yearly produce at 1,850 maunds valued at Rs. 2,96,000 which appear to be rather below than above the truth. Ragi and other food grains and cocoanuts are exported mainly to Bangalore, and rice, jaggory, salt and piece goods imported. A very large quantity of fuel collected from the forest in the Taluk is also exported to Bangalore.

14. The articles intended for export are conveyed to the several Railway Stations and there booked to their destinations There is no market in the Taluk where trade transactions are conducted on a very large scale. The principal markets in the Taluk are the weekly bazaars at Closepet, Bidadi, Santemagenhalli, Virupakshpur and Singrajpur. Annual fairs are also held in some places but they are not very important as occasions utilized for trade purposes.

15. The following shows the agricultural stock of the Taluk :—

Cows 30,120; bullocks 22,620; buffaloes 2,430; sheep and goats 60,000; ponies and donkeys 800; carts 3,000.

16. The weights and measures are those in use in the neighbouring Taluks, a seer in weight containing 24 tolas and a maund containing 40 such seers. The Krishnaraj khandi is the measure generally in use and is the one recognized by Government. There is also a local khandi of 200 seers in use in some parts of the Taluk.

17. The Shanbhogs are partly remunerated by Inam lands and partly by miras, which they get from raiyats. The Patels do not possess that status which they enjoy elsewhere and are as a temporary measure allowed waste land in some cases, which in the majority of them have remained uncultivated. The Totis, Talvars and Nirgantis get Aya from raiyats and some of them enjoy Inam lands besides.

18. From the statement submitted by the Amildar, the prices of staple food grains appear to have been uniform throughout the last 20 years, if the famine years are excluded from them. The average price of ragi is 30 seers and of rice 12 seers a rupee. The wages of an adult male cooly vary from $3\frac{1}{2}$ to 5 annas. Skilled labor commands rates corresponding to the above. The presence of Railway in the Taluk and the large number of important public works in progress these few years, appear to have sent up the rates of wages a little.

19. The rates of assessment said to be now prevailing are given below :—

Dry crop—2 annas to 4 Rs per Kolga.
Rice—Rs. 2·2 to 14 Rs. per Khandi
Garden—Rs. 1·6 to 16 Rs. per Khandi.

There is a peculiar system prevailing in the Taluk in regard to the assessment of cocoanut gardens. If the plot is fully planted, it is assessed at the rate fixed per Khandi or Kolga. If it is not fully planted, then a certain number of trees are taken to be the standard for a Kolga and the total planted area being thus calculated is assessed at garden rates, the rest of the field being assessed at dry crop rates. Of course inequalities of assessment, at the old rates, were to be expected and numerous instances of them come up at test.

20. The raiyats generally cultivate the lands they hold on Patta. Where lands are sublet by middlemen, it is generally let on "Vara" tenure. In some cases

where the lands are valuable such as cocoanut gardens, the sub-tenants pay fixed rent to the land-lords, either in money or in kind.

21. The cattle, notwithstanding difficulties in respect of grazing land, appear to be in fairly good condition. The people too look prosperous and most of them live in substantially built tiled houses. Their general health is much better than one should expect from the proximity of hills and jungles in the uplands and the arge extent of irrigated land in the low-lying tracts of the Taluk.

(4.) Letter No. 1057, dated 20th April 1893, from the Superintendent, Revenue Survey, Mysore, to the Deputy Commissioner, Bangalore District.

I have the honor to forward for your perusal and kind return at an early date, my report No. 1056 of to-day's date (with its accompaniments) containing proposals

for the revision of assessment of the Channapatna Taluk of your District with any remarks you may desire to make on the same.

(3.) Letter No. 3457, dated 27th May 1883, from the Deputy Commissioner, Bangalore District, to the Superintendent, Mysore Revenue Survey.

I have the honor to acknowledge the receipt of your letter No. 1057 of the 20th ultimo and to return its enclosures.

2. Neither your letter nor its enclosures show on what data the proposed rates of assessment have been founded nor how the various rates range. Nor am I practically acquainted with the system of assessment followed in this Province. I am not thus competent to express any opinion on this point.

3. But from the information before me I can form some idea of the immediate effect of the new Survey and the proposed Settlement on the landholders of the Taluk. I shall proceed to describe what strikes me as likely to happen and what we may do to reduce the hardship —not indeed with any intention of opposing my views formed from little or no experience to those of an officer of your experience and local knowledge; but simply and solely to enable you to see whether my views are correct and if so what measure of consideration they deserve.

4. From para 12 of your letter to the Chief Secretary, I find that the new Survey has discovered a large excess in the existing holdings. It is as follows:—

		By Survey. Acres.	By Old Accounts. Acres.	Excess Acres.
Dry	...	78,868	54,950	23,918
Wet	...	4,827	4,331	496
Garden	...	8,115	6,118	1,997

Para 13 shows the collections and the average rate on the above Survey areas as follows:—

		Collections. Rs.	Average Rate. Rs. A. P.
Dry	... ...	47,555	0 9 8
Wet and Garden	... ...	52,331	4 0 8
	Total	99,886	1 1 5

I do not know how these figures are obtained; they do not tally with the table in paragraph 15. But they exceed the highest of the averages given in the latter paragraph, *viz*:—

5 years' average	...	..	99,601
10 years' average	...	...	97.888
15 years' average	...	...	97,115
20 years' average	...	...	97.204
25 years' average	...	...	99,150

and do not therefore weaken my argument.

Paragraph 17 gives the result of the proposed rates on occupied land: it is as below:—

		Assessment. Rs.	Average Rate. Rs. As. P.
Dry	... ...	64,664	0 13 1
Rice and Garden	... ...	53,101	4 2 1
	Total.....	1,17,765	1 4 6

A comparison of the figures of paragraphs 13 and 17 shows an increase which is described below :—

	Increase.	Percentage.
Dry	17,109	36
Wet and Garden	770	1·5
Total.....	17,979	18

5. Thus the increase is mainly on dry lands and it is as high as 36 per cent. It is due both to the large excess discovered in the holdings and to the increased rate of assessment. The average rate on dry lands is raised from Re. 0—9—8 to Re. 0—13—1, *i. e.*, by 35·3 per cent, while the rise in the average of the wet and garden rates put together is only 2·2 per cent. Considering that nearly 86 per cent of the occupied land is dry, I am afraid that the proposed rates will tell very hard on the raiyats. I am not sufficiently well acquainted with the Taluk to be able to judge with certainty as to whether the raiyats are or are not capable of bearing the extra burden as a matter of fact. But according to paragraph 11, the population of Government villages is 83,437. Deducting from it 25 per cent for non-agricultural and cooly classes and taking 5 as the average of a family, we get nearly as many agricultural families as, according to the above paragraph, there are ploughs in the Taluk, *viz.*, 12,000 in round numbers. That is, on the average one plough represents an agricultural family and on this basis we get about 7½ acres of land, wet, garden, and dry included, for a family. Taking the proposed rate to represent one-third of the gross produce (Madras principle) and applying the average rate, we get for a family Rs. 18—13—1 as gross income including the labor of the family, which needs no comments.

6. Next as regards a remedy. The richer classes have for years been accustomed to high rates on wet and garden lands. These lands are hardly 14 per cent of the total occupied area. Their assessment, whatever it may be, cannot much affect agricultural population, as a whole. Why not therefore keep the wet and garden rates sufficiently high and reduce dry rates in proportion? If this is not feasible, let the proposed rates be sanctioned, but introduce them gradually on a progressive scale in one of the following methods :—

First.—Where the assessment at the new rates on wet or garden lands is less than the present assessment, reduce the latter, not at once, but gradually, and where the assessment at the new rates on dry lands exceeds the present assessment, raise the latter, not at once, but gradually, a certain percentage for reduction and increase being determined.

Second.—Introduce the new wet and garden rates, but let the dry rates be raised gradually at a certain percentage.

Third.—Let the Settlement Officer be given discretion to regulate the rates tentatively, where necessary, in view to the gradual introduction of the new rates.

No. 3626-60—R. F. 58-93, dated, Bangalore, 23rd August 1893.

Order thereon.—Colonel Grant's Reports above recorded are equally lucid and exhaustive. The rates proposed, fixed as they have been after discussion with the Dewan Sir K. Sheshadri Iyer, are suitable and work out satisfactorily. The Land Revenue demand in 1891-92 amounted to Rs. 1,00,118—0—0 exclusive of local cess and grazing. The estimated Land Revenue under the proposed Settlement will be Rs. 1,17,765—0—0, showing an increase of Rs. 17,647—0—0 or nearly 18 per cent. Deducting a sum of Rs. 7,000 on account of remuneration to Patels and Shanbhogs and Rs. 3,123—0—0 being contribution towards Irrigation Fund,

the net increase will amount but to Rs. 7,000—0—0. His Highness' Government accordingly finally sanction the adoption and introduction of the proposed Settlement with the usual guarantee for 30 years.

2. The remark at para 6 of Colonel Grant's letter regarding the importance of the early completion of the branch road from Channapatna to join the Malvalli-Bangalore at Halgur will be commended to attention in the Public Works Department.

PART I

LOCAL BOARDS BRANCH—MUNICIPAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—Municipal),—dated 3rd August 1893.

READ:—

Letter from the President of the Mysore City Municipal Board, dated 12th April 1893, No. 791, submitting proposals for the revision of establishments maintained by the Municipality.

No. 1999-2000—L. F. 418-92, DATED, BANGALORE, 3RD AUGUST 1893.

ORDER THEREON.—In the letter above read, the President of the Mysore Municipal Board, proposes the revision of the Municipal establishments.

2. The increases to deserving officials of the Octroi establishment recommended by the Board are sanctioned, subject to the Manager's pay being fixed at Rs. 60 and the Munshis at Rs. 10 a month. The cost of establishment under "III. Collection, (*a*) Octroi" would thus amount to Rs. 5,940 per annum, while the normal receipts amount to over Rs. 60,000. This would give a percentage of less than 10 per cent, as establishment cost, which Government consider very fair considering the nature of the Octroi work.

3. With a wholetime Vice-President of the experience and standing of Mr. Coopooswami Mudaliar, Government do not consider it necessary to appoint a separate Assessor. The collection charges under House, Mohatarfa, and other taxes average already nearly 9 per cent of the income and there are no special circumstances to justify an increase as in the case of the Octroi Department. The President should utilize the services of Municipal Commissioners as much as possible in the assessing of houses. He may also utilize the services of the Municipal Engineer as far as may be consistent with the due discharge of the latter's legitimate duties, in assisting the Vice-President to supervise the collections. Of the two Peons attached to the City Amildar, one may be given to the Vice-President and the other to the Municipal Engineer, in case the latter's services are made available in the manner above suggested.

4. The proposals as regards two additional Peons to the collection Mutsaddies and the modified scale of pay to Mutsaddies and Peons are approved. This involves an additional expenditure of Rs. 36 a year, which will be met as suggested by the President, by reducing the provision under "Contingent allowance" from Rs. 200 to Rs. 164 per annum.

5. The provisions for a Lascar on Rs. 6 to the Municipal Engineer and an Accountant on Rs. 35 for the Public Works Branch of the Municipal office are sanctioned. This would give an establishment charge of Rs. 3,672 per annum under Public Works supervision or 9·4 per cent of the expenditure on works amounting to Rs. 37,000. This is not too high considering the usual establishment charges in the Public Works Department.

6. The proposal to entertain 32 additional sweepers costing Rs. 172 per mensem is sanctioned. As regards the hire of 10 spare carts and the entertainment of as many coolies at Rs. 7 a month to expedite the carting away and deposit of rubbish, the utility of the proposal seems doubtful, as it assumes that the time occupied in walking to the rubbish Depôt a pair of bullocks yoked to a loaded cart and bringing them back to the original spot, is the same or nearly the same as that of filling the empty cart with street sweepings. The President may, however, try the experiment, with a couple of carts and report the result of the trial three months hence. Government observe that in Bangalore with an expenditure of Rs. 17,000 on conservancy, a revenue of Rs. 1,000 is derived from the sale of manure which in itself is too little. Considering that with the additional establishment above sanctioned, the cost of

conservancy in Mysore will come to Rs. 24,000, it is a matter of surprise to Government that the President should have entered only Rs. 100 under "Sale proceeds of manure" in the Budget for 1893-94. The President should take immediate steps to have all Municipal sweepings sold by auction and report the results of the same at the end of three months from this date.

7. *Water Maintenance Establishment.*—It is proposed to raise the salary of the Inspector by Rs. 5 and of 2 watchers by Rs. 3 per mensem. The proposal is sanctioned.

8. *Market Establishment.*—The proposed revision of the establishment involving no extra cost to the Municipality is sanctioned as noted in the margin.

OFFICIAL MEMORANDUM.

It has come to the notice of Government that the Hobli Shekdar of Alur is still regarded as an *ex-officio* Member of the Alur Municipal Board. Probably officers of other Departments, who were once appointed as *ex-officio* Members, but who cannot now be recognized as such Members under Government Proceedings, dated 9th February 1893, No. 13469-80—80, still continue to serve as such Members in some other Municipalities also. The attention of the Presidents of the several non-regulation Municipalities in the Province is invited to the Proceedings above quoted and they are requested to revise the list of existing *ex-officio* Members in accordance therewith. If the retention of such of the officials as would cease to be *ex-officio* Members be considered necessary, their names should be reported in view to their being appointed as nominated Members. The designation of officers who have to be newly appointed as *ex-officio* under the recent orders, should be stated as early as possible.

Letter from the Deputy Commissioner of the Mysore District, dated 27th June 1893, No. 1513, submitting statements showing the modifications to be made in the Budget grants for 1892-93 of the several Municipalities in the French Rocks Sub-Division and requesting orders thereon.

No. 3543-8—L. F. 201-92, DATED, BANGALORE, 23RD AUGUST 1893.

ORDER THEREON.—Government observe that there has been a delay of nearly 9 months in the submission of the above statements. The Deputy Commissioner is requested to strictly enjoin greater promptitude on the French Rocks authorities in answering communications from this office.

2. The modifications proposed in the Budget Estimates of receipts and expenditure of the several Municipalities of the French Rocks Sub-Division for 1892-93 sanctioned in Government Proceedings, dated 2nd March 1892, No. 14205-9—L. 1476, are given in the following abstract statement:—

3. The supplemental grants now applied for are given in the margin. It is observed that if the present application be granted, the closing balance will be reduced to Rs. 1,041 or Rs. 1,747 less than the minimum balance prescribed and Government are not therefore prepared to sanction the same without further and fuller explanation why the additional provision has become necessary and how much of it has been actually spent. This information should be submitted at an early date. It is noted that the provision already sanctioned on account of the school at Seringapatam including Rs. 72 sanctioned in Government Proceedings, dated 10th May 1892, No. 2323-4—L. 334, is Rs. 1,152 and not Rs. 1,080 as erroneously entered in the supplemental Budget. It should be explained whether the provision of Rs. 122 proposed includes the sum of Rs. 72 above referred to.

4. A supplemental Budget is submitted for Rs. 10 for the Municipal contribution towards the pay of a midwife; it should be reported when she was entertained.

1. *Krishnarajpete.*
2. *Malvalli.*
3. *Nagamangala.*

5. The following supplemental grants proposed for the Municipalities of Krishnarajpete, Malvalli and Nagamangala are sanctioned, as funds are available to meet the increased cost:—

		Contribution towards Midwife's pay.	Miscellaneous (*h*) Other items.
(1)	Krishnarajpete	7	40
(2)	Malvalli	12	4
(3)	Nagamangala	8	6

6. As the sum of Rs. 40 above sanctioned for Krishnarajpete is stated to be on account of Pound establishments, the same will be shown under its appropriate head "XI. Miscellaneous (*d*) Pounds," but the Deputy Commissioner is requested to furnish details for the lump sum entry of Rs. 40.

Melkote.

7. The Deputy Commissioner proposes a supplemental grant of Rs. 846 under the heads noted in the margin. According to the original Budget estimates sanctioned in Government Proceedings, dated 2nd March 1892, No. 14205-9—L. 1476, there will be a minus balance of Rs. 445, which would rise to Rs. 1,291, if the present proposals were sanctioned. Government are not therefore prepared to sanction the application and the original estimate will accordingly be retained in the Budget. It must be strictly understood that whenever the balance of a Municipality falls below the prescribed percentage of the receipts and specially in places like Melkote, where there is a minus balance, no additional expenditure should be proposed except under circumstances of extraordinary pressure.

10. The increase under receipts is stated to have been realized from the sale of manure. This is highly creditable to the Municipal authorities of French Rocks. The attention of Presidents of Municipalities is invited to the above as a bright example of what can be done even by a Minor Municipality in turning manure collections into an important source of Municipal revenue. The receipts as proposed are sanctioned; but the amount proposed under expenditure cannot be sanctioned, as there will be at the end of the year a minus balance of Rs. (399—250) or Rs. 149.

11. Subject to the explanations called for, the Budget estimates of receipts and expenditure of the several Municipalities of the French Rocks Sub-Division for year 1892-93 will stand as shown in the following abstract statement :—

LOCAL BOARDS BRANCH—LOCAL FUNDS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—District Funds),—dated 3rd August 1893.

Government Proceedings, dated 22nd February 1893, No. 14247-55—L F. 346-92.

READ —

(1) Letter from the Deputy Commissioner, Kolar District, No 2507—590 dated 12th February 1893.

In continuation of my letter No 1657—380 of the 28th November last, I have the honor to state that the subject of granting travelling allowances to the Amildars and Deputy Amildars and to non-official Members who attend the District Fund Board Meetings was discussed at the meeting and the resolution passed by them is recorded in para 9 of the Proceedings a copy of which has been submitted with this office docket No. 2412—564 of the 7th instant

2 Solicits sanction to defray the travelling allowances to the Members at the rates therein peeified from the District Funds.

(2) Docket from the Deputy Commissioner, Kadur District, No. 470, dated 8th March 1893.

With reference to Government Proceedings No. 14247-55—L F 346-92 of the 23rd ultimo received to-day has the honor to state that the undersigned is in favor of proposing the decent rate of annas 4 per mile to non-official Members of Local Fund Boards for journeys travelled by them as is allowed to Amildars and non-gazetted officers or officials of superior service under Mysore Service Regulations. Article 528 and Appendix No 2, attached thereto

It does not appear advisable to fix the number of miles which the Members have to travel a day to entitle them to draw mileage as in that case some rate of batta has to be fixed for their halts or short stages The rate of annas 4 is expected to cover cart hire and all other expenses during the trip.

For the purpose of calculation of mileage the distance from their ordinary place of residence to the place where meetings are held may be adopted

(3) Docket from the Deputy Commissioner, Bangalore District No. 907, dated 16th March 1893.

The Government Proceedings No 14247-55—L F. 346-92 dated 23rd ultimo requesting to report the rates of mileage that may be given to non-official Members for attendance at the meetings of Local Fund Boards

In reply begs to report that the undersigned would propose 4 annas a mile when the Members travel more than 5 miles from their ordinary residence.

(4) Letter from the Deputy Commissioner, Chitaldroog District, No 522—485, dated 16th March 1893.

With reference to Government Proceedings No 14247-55—L. F 346-92 of the 23rd ultimo, calling for opinion regarding the rates of mileage to be allowed to the non-official Members of the Local Fund Boards for attending the meetings, I have the honor to state that they may be allowed 2 annas per mile which would be ample, as carts can conveniently be procured at 1½ anna per mile In the majority of cases, the Members travel in their own carts but the grant of mileage will induce them to be more regular in their attendance.

(5) Letter from the Deputy Commissioner, Shimoga District, No 1265—1218, dated 17th April 1893.

With reference to Government Proceedings No. 14247-55—L. F 346 92 of the 23rd February last, I have the honor to propose that the non-official Members of the Local Fund Boards may be paid mileage at the rate of 4 annas a mile each for the distance travelled in Malnad and three annas a mile each for the distance made in Maidan, without any limit of the distance to be travelled each day

2 Copy of letter No 582 of the 17th ultimo, received from the Sagar Sub-Division Officer is submitted for information.

Letter No 582 dated 17th March 1893, from the Sub-Division Officer, Sagar, to the Deputy Commissioner, Shimoga

With reference to Government Proceedings No 14247—L. F 346-92, dated 23rd ultimo, on the subject of paying mileage to the non-official Members, for attendance at the meetings of Local

Fund Boards, I have the honor to state, that some time back the Members of the Dasara Representative Assembly were being paid a mileage of annas two per mile as travelling allowance for their attendance at the assembly at Mysore The Members of the Local Board have to attend meetings three or four times in a year, and I think that it is reasonable that they should be paid their actual travelling expenses In Malnad places, carriage expenses are heavier than in Maidan Taluks I would therefore recommend that Members attending from Malnad Taluks be paid annas 4 per mile and those from Maidan, annas 3 on account of their travelling expenses

(6) Letter from the Deputy Commissioner, Mysore District, No. 1361, dated 12th May 1893

With reference to Government Proceedings No. 14247 55—346-92, dated 23rd February 1893, and subsequent reminder No 18002-3—346-92, dated 2nd May 1893, I have the honor to report that a mileage of two annas has been considered a fair allowance to the non-official Members by the Local Fund Board of the Mysore Circle vide copy of Proceedings of the meeting submitted with this office letter No. 1191 of the 25th March 1893, and that this rate may be adopted

2 The French Rocks Local Fund Board are also of the same opinion.

(7) Letter from the Deputy Commissioner, Hassan District, No 1132—8, dated 17th May 1893

Adverting to Government Proceedings No 14247-55—L F 346-92, dated 23rd February last, I have the honor to state for the information of Government that on the 29th ultimo, the question of allowing mileages to the non official Members, was placed before the Local Fund Board, and the Members Messrs Srikantiya and Thammaiya informed the Board that as the meeting of the Board is for the good of the people, no remuneration of any sort is necessary If any mileage is to be granted for their attendance, the Board think that mileage be allowed at rate now adopted for Amildars and officers of that rank, *i. e.*, 4 annas

Copy of the resolution is enclosed.

VII. Read Government Proceedings No. 14247-55—L F. 346-92, dated 23rd February last, calling for a report on the rates of mileage to be given to the non-official Members of the Board, for attendance of the meetings.

Messrs. Thammaiya, Srikantiya and Bhimanna informed the Board that they are of opinion that as the meetings are for the good of the people, no remuneration of any sort is necessary or desirable.

Mr. Nagavkar informed that the rate of 3 annas proposed appears to be low considering the status of the Members in the Board and also that it is less by an anna allowed to the officials.

After discussion and consideration it was resolved that if any mileage is to be granted at all to these Members the rate may be that adopted for Amildars and officers of that rank (*i. e.*,) 4 annas a mile.

(8) Letter No. 747, dated 12th March 1893, from the President of the District Fund Board, Tumkur.

With reference to Government Order No. 14247-55—L F. 346-92 of the 23rd ultimo, (received on the 8th instant) enquiring what rate of mileage may be given to the non-official Members of the District Fund Boards for attendance at the meetings of the Boards, I have the honor to state that the rate of 3 annas per mile proposed by the Deputy Commissioner of Kolar seems to be fair.

No. 2003-13—L. F. 346-92, dated, Bangalore, 3rd August 1893.

Order thereon.—In November 1892, the Deputy Commissioner of the Kolar District, proposed the grant of travelling allowances to official and non-official Members of Local Funds Boards. The Deputy Commissioners of other Districts were requested to report the rates of mileage that they would propose in the case of non-official Members for attendance at the meetings of Local Fund Boards. The papers read above are in reply.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Local Boards Branch—District Funds),—dated 3rd August 1893.

2. It is observed that the minimum number of meetings of Local Fund Boards has recently been increased from 2 to 6 and the absence of non-official Members from 3 consecutive meetings of the Board entails removal from the Board. Under these circumstances Government are pleased to direct that in future for all distances exceeding 5 miles from their ordinary residences, travelling allowances be granted to official as well as non-official Members. The rates of allowances to official Members will be regulated by the Mysore Service Regulations and charged to the heads of service to which they belong. Non-official Members will be allowed to charge 4 annas a mile by road, and double second class railway fare by rail and the charges debited to District Funds. In either case, no halting allowances will be granted.

3. Suitable provisions should be made for the above charge in the annual District Fund Budgets. To meet the charge in the current year, the Deputy Commissioners are requested to submit Supplemental Budgets at an early date.

READ :—

Letter from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, dated 10th July 1893, No. 122.

I have the honor to report for the information and orders of Government that in many instances the hospital wards attached to local fund dispensaries are being occupied by paupers and sick strangers and if this is encouraged, or allowed to continue, as it is likely to unless some check be put upon it, the results will be that the allotments for dieting in-patients will be rapidly exhausted, and the wards will have to be closed for want of funds unless in the case of those who can afford to diet themselves and what is perhaps of more importance they will come to be looked upon as poor-house wards and the respectable inhabitants of the different districts for whose benefit they were primarily and mainly intended will not resort to them for that reason.

2. The paupers and wanderers above referred to are neither cleanly nor healthy and as they are generally destitute and suffering from the results of inanition they are likely to require prolonged detention in hospital to the probable exclusion of respectable persons.

3. It is difficult in a humanitarian point of view to refuse food, shelter and medical aid where needed to sick and destitute strangers and wanderers, and I do not advocate this, but I contend that if these wards are used to any considerable extent by this class of persons they will be branded as poor-house wards and will not be used by the respectable classes.

4. The same remarks apply to the larger hospitals of the State but not to an equal extent, as in these latter the numbers are large or comparatively large and in the multitude the objectionable characters of the few attract less attention and frequently there is room available to put them by themselves which is not so in the case of the wards attached to the dispensaries of which they may be the only occupants.

5. I shall be glad if Government will be pleased to lay down some definite ruling on the points above referred to.

6. I would propose for the consideration of Government, that in places where no chattrams public or private are available, separate wards or poor houses should be established for the reception of sick strangers or the moribund poor with separate endowments or allotments for their maintenance under such management as Government may determine and let the persons above referred to use them and be treated at the dispensaries as out-patients.

7. What has led me to make a representation to Government on this subject is the receipt for countersignature of a bill from the Honnali Dispensary for Rs. 8—8—0 for dieting three paupers from the 5th, 8th and 15th of June respectively up to the end of that month and the same sort of thing in varying degrees has come to notice in the case of other dispensaries.

ORDER THEREON.—The letter read above will be communicated to the Presidents of the Local Fund Boards for their remarks and suggestions.

No 1695, dated 6th June 1893.

With reference to your docket No. 1415—L. F., dated 1st ultimo, requesting to explain how certain sums that are shown as expended in the District Fund Accounts are not traceable in the List of Payments, I have the honor to state that it has been ascertained from the Amildars that they expend amounts on District Fund works from the Imprest made to them by means of cheques from this office from time to time on their requisitions and send vouchers to this office in support of the charges. Thus while this office accounts show as per vouchers, the amounts expended on different works, the Treasury List of Payments have no mention thereof.

If the amounts expended have to appear in the Treasury List of Payments, I would be obliged by being instructed as to the procedure to be adopted to meet the object in view.

Letter No. 837—155, dated 2nd April 1886, from the Assistant to the Resident in Mysore, to the Chief Secretary to the Dewan of Mysore.

I am directed to state for the information of His Highness the Maharaja's Government that the Officiating Resident recently addressed the Government of India regarding the operation of Acts XX of 1847, and XXV of 1867 in the State of Mysore, with special reference to the preservation of the copy-right of works published therein.

2. The points submitted were among others,—

(*a*) Whether copy-rights secured in Mysore since the rendition under the provisions of Acts XX of 1847 and XXV of 1867, have effect in British India,

(*b*) Whether it is necessary for quarterly extracts showing the copy-rights granted and secured in Mysore to be forwarded to the Government of India, and

(*c*) Whether the Government of Mysore is under obligation to supply to the Government of India and to the Secretary of State copies of books printed in Mysore as provided in Section 11 of Act XXV of 1867, or the quarterly catalogue printed in Mysore under the provisions of Section 19.

3. With regard to the first of the foregoing points, the Governor-General in Council is of opinion that the copy-right of a book published in the State of Mysore cannot be acquired in British India by registration under Act XX of 1847 or Act XXV of 1867. As to the remaining points *b* and *c*, His Excellency in Council considers that the Mysore Government need not supply to the Government of India or to the Secretary of State the quarterly extracts and copies of the books therein referred to.

4. Under these circumstances, I am to request that in future only 30 copies of the quarterly catalogues may be supplied to this office for information and distribution as noted on the margin.

I am directed to acknowledge the receipt of your office letter No. 2110—178, dated 13th July 1887, forwarding 30 copies of the catalogue of books registered in the State of Mysore under the provisions of Act XXV of 1867 during the quarter ending 31st March 1887.

2. I am to request that five copies only of the catalogue may in future be supplied to this office.

Letter No. 133—475-85, *dated* 15*th January* 1892, *from the First Assistant to the Resident in Mysore, to the Dewan of Mysore.*

Referring to paragraph 2 of this office letter No. 2367—475-85, dated the 27th July 1887, I am directed to request that in future eight copies of the quarterly catalogue of books registered in the Mysore State may be supplied to this office.

Letter No. 742, dated 4th August 1893, from the Comptroller to Mysore Government, *to the Chief Secretary to the Dewan of Mysore.*

With reference to your docket No. 18990—C. F. 443-92, dated 11th May 1893, forwarding copy of letter No. 687, dated 14th April 1893, from the Deputy Commissioner, Hassan District, *in re* payment of Police Establishment at outstations for remarks and explanation with reference to my letter No. 2469, dated 12th November 1892, I have the honor to state that the Circular No. 1256, dated 4th March 1876, to which the Deputy Commissioner draws attention, is only an amendment of Circular No. 1191, dated 8th March 1875, and permitted the pay of Policemen on duty at *outstations* but not at Head-quarters, being disbursed through the Inspectors or Sub-Inspectors without reference to the distance of 10 miles from the Taluk Kasaba. The amended Circular was apparently unknown to the Maddagiri Taluk authorities and to the Inspecting Officer, Assistant Commissioner Mr. K. Ramachandra Rao, as also to the Tumkur Deputy Commissioner's Office as will be seen from the enclosed copy of query VIII (*b*) of the Taluk Inspection report * and the observations made thereon. This Office too, I regret to say, failed to quote the amended circular in the printed copies of queries prepared for the use of Officers inspecting Taluk Treasuries and in reporting the matter to Government in this Office No. 2468, dated 12th November 1892, appears to have altogether lost sight of this amended circular.

* Not printed.

2. The Superintendent instead of verbally ordering the Sheristadar to alter a procedure that had been in force from a long time, ought to have pointed out in writing any authority that he might know to the contrary and obviated the necessity for all this correspondence.

3. To make matters thoroughly clear, I have issued a fresh circular to the Deputy Commissioners of Districts, a copy of which is enclosed for your information.

ENCLOSURE TO THE ABOVE.

Enclosure to the above, Circular No. 1797, dated 2nd August 1883, from the Comptroller to Mysore Government to the Deputy Commissioners of Districts.

There being reason to apprehend that the instructions contained in this Office Circular No. 1191 and amended Circular No. 1256, dated respectively 8th March 1875 and 4th March 1876, regarding the payment of Police Establishments at Taluks, are not generally observed, the Comptroller has the honor to request that Deputy Commissioners of Districts will be so good as to

remind the Amildars under their control that according to the circular orders above referred to, only those Policemen who are on duty at the Head-quarters of Taluks will be paid by the Amildars direct, and the pay of those Policemen who are on duty at *all* outstations, irrespective of their distance from the Kasaba, should be disbursed through the Inspector or Sub-Inspector.

No. 2843-52—G. F. 443-92, DATED, BANGALORE, 11TH AUGUST 1893.

ORDER THEREON.—In the foregoing letter, the Comptroller represents that a mistake has been made in his Office and that he has rectified it by issuing a fresh circular to Deputy Commissioners. The letter is communicated to the Inspector General of Police and to all Deputy Commissioners of Districts, in supersession of para 2 of Proceedings No. 12123-66—G. 2563, dated 9th January 1893.

READ.—

Letter No. 165, dated 16th August 1893, from the Deputy Commissioner, Mysore District, to the Chief Secretary to the Dewan of Mysore.

I have the honor to submit herewith the proceedings of the Members of the Mysore Literary Union, dated 29th ultimo, convened for the purpose of electing a Representative as sanctioned by Government Proceedings No. 310-11—G. 107, dated 8th idem in which the question was discussed as to whether Government servants, who, under Rule six of Notification No. 76, dated 14th May 1891, are debarred from voting for, or being elected as, a Member of the Assembly, are likewise debarred from voting for one of their non-official Members in the Union which consists of 46 such members. The Secretary to the Union further states, with reference to the practice in force in Municipal and Local Fund Boards, that the voting power of Government servants is not taken away in such cases by the rule above quoted. The view taken by the Union is literally opposed to the order of Government as contained in the Rule, although in my humble opinion, it does not seem to apply to Unions and other corporate bodies which are represented both by Official and non-official Members on behalf of the public. I therefore beg to solicit orders so as to remove possible doubts on the point.

(Extract from the Proceedings of the General Meeting of the Members of the Mysore Literary Union held on Saturday the 29th July 1893.)

As soon as Mr. Weir, the Vice-President of the Union, took the chair, the question whether salaried Government Officials are entitled to vote, was mooted. The question was discussed by several members. Some said that though the letter of the Rule relating to the election of members definitely lays down that no salaried Government Official shall vote or be returned as a representative, yet the spirit of the Rule as heretofore in force in Municipal and Local Fund

Boards went to show that the Government never meant to place a check on the voting power of Government servants. The practice heretofore in force in such elections was to see that non-official was returned irrespective of the circumstance, whether such non-official representative was elected by the votes of salaried Government Officials or otherwise. The chairman, however, with some others, was of opinion that it was necessary to respect the letter of the law and therefore he ruled that no member being a salaried Government Official, shall vote in electing a member to represent the Union in the Dasara Representative Assembly. In accordance with this ruling the non-official members proceeded with the business of the evening and elected by ballot the Reverend W W. Holdsworth, M. A., to represent the Union in the Dassara Assembly.

No. 3577-84—G. 866, DATED, BANGALORE, 22ND AUGUST 1893.

ORDER THEREON.—The rule No. 6 is quite clear on the point. It may be regarded as an instruction to Government servants to abstain from voting. In the present case, the nomination of the Reverend Mr. Holdsworth, having been made by members of the Literary Union who are not Government servants, is accepted.

(1) Letter No. 1618, dated 20th April 1893, from the Chief Engineer of Mysore, stating that in the Kolar District the operation of the minor tanks restoration scheme as regards the execution of earth work by raiyats, is still in abeyance and requesting sanction to the formal withdrawal of the Order contained in para 3 of the Proceedings of Government No. D. 560, dated 7th July 1892.

(2) Letter No. 2627, dated 16th June 1893, from the same Officer.

No. 3880-81—G. 927, DATED, BANGALORE, 26TH AUGUST 1893.

ORDER THEREON.—It is reported that in the other Districts to which the Order of Government No. D. 560 of the 7th July 1892 applied, the old custom of getting earth work executed by raiyats under the minor tanks restoration scheme, which had been in abeyance temporarily during the past season of drought, has been already revived, and there is no reason why the same should not be done in the Kolar District. As remarked by the Chief Engineer the order in question referred in express terms to the minor tanks then in hand out of those taken up as Relief Works.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 31st August 1893.

READ:—

Letter No. 76, dated 22nd July 1893, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

With reference to your No. 638—G. F. 98-92 of the 12th instant, calling for a full detailed report regarding the working of the Vaccine Institute, I have the honor to enclose a brief statement of accounts in connection therewith from 14th March 1892, (*i. e*, date of starting) up to the 20th instant, showing also the number of calves vaccinated, the amount of vaccine paste manufactured and distributed, &c., and to state that the full detailed report will be submitted as soon as the information called for from the Districts and elsewhere as regards vaccination with lanoline vaccine, is received.

2. From the reports on hand it is seen that the working of the Institute has been highly satisfactory and it is my decided opinion that the Institute should be made permanent. Vaccination with lanoline vaccine is the cheapest, easiest and most efficacious of all methods of vaccination as will be seen from the detailed report that will follow.

3. From the figures in the statement enclosed, it will be observed that the Institute may in a certain sense be considered "Self supporting" as reported in my previous letter No. 912, dated the 3rd December 1892.

4. In addition to supplying the Province with as much vaccine paste of uniformly good quality as was required for the use of the Vaccinators, the Institute has been supplying several parts of India and Burma; an abstract report containing the opinions of such of the Medical Officers of these places as have been received is enclosed for the information of Government.

5. The amount sanctioned for the continuation of operations has been exhausted, and if Government should wait to pass orders until the receipt of the detailed report which will take some time for compilation, the Institute work will have to be discontinued at once for want of funds and it will stop vaccination work in the Province all on a sudden as it will be difficult and undesirable to re-introduce the arm-to-arm method; in addition, it will cause similar inconvenience to those outside the Province who mainly depend on this Institute for their supply of vaccine paste.

6. Under the above circumstances, I request the favor of immediate orders of Government being obtained for the annual expenditure of Rs. 5,000 asked for in my letter No. 1253, dated 2nd June 1893.

NOTES.—1. Five hundred and eleven calves were purchased during the period at a cost of Rs. 2.816 9—6, *i. e.*, at an average of Rs. 5—8—2 per head.

2. Of the 511 calves, 43 were rejected owing to unhealthy condition of vesicles, 11 failed, 8 died before inoculation, and 12 were vaccinated only for cultivation of vaccine; the remaining 437 calves were inoculated both for cultivation of vaccine and for paste, and the total quantity of paste obtained was enough for 210.844 cases, *i. e.*, at an average of 482·48 cases per calf,

N. B—This average would have been higher if the calves were vaccinated only for paste.

3. Paste enough for *210,844* cases was manufactured and distributed, which at a nominal value of *6* * *pies per case*—the price at which the paste is being sold to outstations—comes to Rs. 6,588—14—0; the actual cost including pay of establishment deducting the sale proceeds is only Rs 4,339—5—7, thus there is a clear gain of Rs. *2,249—8—5*.

4. Thus the actual cost per each case including pay of establishment is only *3·95 pies*.

5. *The percentage of success* obtained with lanoline vaccine was, as stated in my vaccination report for 1891-92, *10·18 per cent higher than the average for the ten previous years although the vaccinators were then inexperienced in the use of the paste. It is hoped that the results for 1892-93, when compiled, will give still higher percentage.

*N. B.—1. The price of calf-lymph—
British Calf Vaccine Institute, Surrey—1 shilling per case.

2. Do of vaccine pulp, Swiss Vaccine Institute, Lancy, Geneva—2½ do do.

3. Do of calf lymph stored in capillary tubes, Madras—4 annas do

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 31st August 1893.

Abstract Report from the Medical Officers outside the Province on the efficacy of Lanoline Vaccine supplied from the Mysore Government Vaccine Institute.

No.	Name of Officers.	Opinion.
1	Residency Surgeon, Bangalore ...	"The lanoline vaccine gives more satisfactory results than other known forms of vaccine."
2	Senior Medical Officer, Bolaram ...	"Is highly satisfied with the lymph and as long as he can be supplied with it, will use no other kind."
3	Civil Surgeon, Raichur	"I have found lanoline vaccine more effective than ordinary lymph when used fresh. The preparation is more stable than calf lymph or arm lymph Mode of vaccination extremely useful."
4	Civil Surgeon, Toungo, Burma ...	"Lanoline vaccine is in my opinion far superior to any other form of vaccine we use here and has an advantage over paste made with glycerine and tube lymph because it retains its efficacy much longer, the latter I have found useless after 72 hours, the results in the table speak for themselves and are highly satisfactory."
5	The Medical Officer, South Station Hospital, Bangalore	"More reliable than tube lymph."
6	Civil Apothecary, Ripalli ..	"Most successful and most useful. Equal in efficacy to calf lymph."
7	Senior Medical Officer, Jalna ...	"Most successful."
8	The Indian Medical Record (April 1893)	Recommends the use of the "splendid" Lanoline Vaccine manufactured here for use in Cashmere.

No. 4256-7—G. F. 89-92, DATED, BANGALORE, 31ST AUGUST 1893.

ORDER THEREON.—In reply, the Senior Surgeon is informed that sanction is accorded to a provision for Rs. 5,000 being made in the Budget for 1893-94 for experiment in connection with the Vaccine Institute. The Senior Surgeon will now submit a regular estimate under detailed heads.

2. The Senior Surgeon is further informed that Government are not prepared to sanction the institution as a permanent establishment until further experience justifies such a measure. The Government await the full report on the subject promised in Senior Surgeon's No. 76, dated 22nd July 1893.

PART I.

DECISIONS OF GOVERNMENT IN REVENUE CASES.

AUGUST 1893.

Appeal No. 27 of 1892-93.

Appellant .. Subba Rao (residing in Shimoga) of Ajjampur, Tarikere Taluk.

Facts of the Case.

On the 11th October 1889, the Appellant's father Doddevarappa, who was Patel of Virapur in the Tarikere Taluk, was dismissed under the provisions of Section 35 of the Land Revenue Code, as he was convicted of theft of a large quantity of Government sandalwood, of felling reserved timber without license, and of concealment of stolen property, and sentenced to one year's rigorous imprisonment and a fine of Rs. 1,401. Thereupon one Murigegauda, a Lingayet, was, on 24th February 1890, appointed as Patel of Virapur on the recommendation of the Amildar. On the 1st June 1892, the Appellant prayed that he might be appointed as Patel in the room of his father Doddevarappa, but the Deputy Commissioner held that theft of sandalwood by a Patel whose duty it was to look after all Government property and report any offences against it must be viewed as a very serious offence falling under clause (*b*), para 5 of Rule XLIII, and dismissed the application on 26th July 1892. The Appellant, in his appeal to Government, urges that the dismissal of his father cannot deprive him of his hereditary hak.

Decision.

The Government observe that deprivation of Hak to the family is a very *necessary* element in the punishment for an offence such as was committed by Petitioner's father. The appeal is therefore rejected.

No. 2940—Pet. 238, DATED, 9TH AUGUST 1893.

Communicated to the Deputy Commissioner, Kadur District, with proceedings.

Appeal No. 46 of 1892-93.

Appellant .. Mutthukur Nanjappa, residing in Alalaghatta, Gubbi Taluk.

Facts of the Case.

On the 23rd December 1891, the share held by Ramanna and others in the Jodi village of Kanappanaikanhalli in the Maddagiri Taluk was sold for arrears of Jodi due on the said share which amounted to Rs. 588—7—9. The Appellant Nanjappa bought it for Rs. 1,301, but the sale was not confirmed. The defaulters Ramanna and another having, on the 21st January 1892, complained that the amount tendered by them was not received by the Amildar, the General Assistant Commissioner under instructions from the Deputy Commissioner allowed the applicants further time for paying the arrears and upon their producing the amount cancelled the sale on the 12th April 1892. On the 3rd August 1892, the Deputy Commissioner to whom the purchaser appealed, declined to interfere on the ground that the delay in the payment might have been due to the failure of rains in 1891, and that the sale had been set aside before it was confirmed; but directed that the defaulters should pay the purchaser interest on the purchase money at Rs. 1—4—0 per cent per mensem from the date on which it was paid into the Treasury up to

the end of August 1892, and a further sum of Rs. 20 on account of other expenses which he had incurred in connection with the sale. The purchaser in his appeal to Government urges that the defaulters had ample opportunity and yet failed to pay the arrears before the sale, and prays that the sale may be confirmed.

Decision.

If, as alleged by the Jodidars, they tendered the amount of arrears due for their share prior to sale and the Amildar refused to receive the same, the sale was illegal. The Deputy Commissioner, however, made no enquiry to ascertain the truth or otherwise of the alleged tender, but allowed the defaulters to pay up the arrears and directed the General Assistant Commissioner to withhold confirmation of the sale. Under these circumstances, the Government do not consider it expedient to interfere with the Deputy Commissioner's order.

2. This appeal is rejected.

No. 2942—Pet. F. 275-92, DATED, 9TH AUGUST 1893.

Communicated to the Deputy Commissioner, Tumkur District, with proceedings.

Appeal No. 27 of 1892-93.

Appellant.	*Vs.*	*Respondent.*
Kapanipathaiya, residing in Mysore.		Nanjundaiya, *alias* Puttaiya, Shanbhog of Kannahalli, Tirumakudlu-Narsipur Taluk.

Facts of the Case.

The Appellant's father Kappaiya was one of the three sons of Kapanipathaiya who, in 1863, was the registered Shanbhog of Kannahalli in Tirumakudlu-Narsipur Taluk, the other two sons being Samaiya and Nanjundaiya *alias* Puttaiya (Respondent). The latter was given in adoption to Chikkannaiya, brother of the said Kapanipathaiya. Kapanipathaiya was succeeded by Samaiya, who held the office till his death in 1872-73, when, at the request of his widow, his brother Kappaiya (Appellant's father) was appointed as Shanbhog. Kappaiya was removed in 1884, as he was suspected of having exacted money from raiyats to pay his debts and was exceedingly unpopular, and Respondent Nanjundaiya was appointed to the office as one capable of discharging the duties satisfactorily and without any interference on the part of Kappaiya. In 1891 Appellant applied that he should be appointed as Shanbhog, but the Assistant Commissioner recommended that the Respondent, whose appointment had been approved by Government, should continue in the office, and that the Appellant's claims might receive consideration when the office again became vacant, and the Deputy Commissioner ordered that as no right or interest in favor of Appellant was reserved when the Respondent was appointed under the orders of Government, his application could not be entertained. The Appellant in his appeal to Government urges that he is the proper Hakdar and that the Respondent's appointment during his minority was only temporary.

Decision.

The present officiator Shanbhog cannot be ousted in favor of Petitioner who, however, may be registered as a Hissedar.

Kamatappa of Hodigere, Channagiri Taluk, Shimoga District.		Mahadevappa, represented by Mr. K. T. Narasimhaiengar, Advocate.

This is an appeal against the order of the Deputy Commissioner, dated 2nd June 1892, referring the Appellant to Civil Courts in regard to his claim for a right of way through No. 64, the Patta land of the Respondent.

2. The Deputy Commissioner states that the way in dispute is not shown on the Survey Map of the village and that Petitioner has the means of taking his carts and cattle through his own land without interfering with the Respondent.

3. Under these circumstances the Government see no reason to interfere with the decision of the Deputy Commissioner which is hereby confirmed.

Dyapa of Sonaganahalli, Mandya Taluk, Mysore District.		Naranappa of Guttal, Mandya, Mysore District.

In the case of Petition No. 923, dated 25th July 1890, presented by the Respondent, the Government decided that the land granted on darkhast to the Petitioner in this case should be resold. But petitioner having represented that the land granted to him, has been, since the grant, alienated by him, the Deputy Commissioner was asked to report whether the alleged alienation was true and if so to postpone the resale of the land. The Deputy Commissioner reports that although no sale deed is produced, still it is a fact that petitioner Dyapa resigned it in favor of one Dyava and that the Patta stands in the latter's name. At the hearing Dyava said he alienated it again to 5 others.

2. Seeing the land has passed so many hands since it has been granted to Dyapa, the Government are pleased to cancel the decision already passed and to leave the order of the Deputy Commissioner undisturbed.

No. 3994—P. F. 74-93, DATED 29TH AUGUST 1893.

Communicated to the Deputy Commissioner, Mysore District.

Appeal No. 10 of 19th July 1892.

Appellant .. Nanjundaiya of Chikkadunnasandra, Anekal Taluk, Bangalore District.

This is an appeal against the order of the Deputy Commissioner, dated 12th May 1892, treating the Tope held by the Petitioner (Survey No. 57) as charitable Tope and declining to give it to the Petitioner on Patta.

2. The record of enquiry shows that the Tope (acres 1—28 assessed at the Survey at Rs. 3—8—0) was planted about 60 years ago by the father of the Petitioner, that it has been always held and enjoyed by the Petitioner's family, subject to an assessment of Rs. 1—5—0, but that the assessment is entered in most

accounts as "Amrayi Kandayam" under the head of ready money collections or Swarnadayam, while in the accounts of *Siddhanthi* 1859-60 and some other accounts the assessment is shown as land tax. The Deputy Commissioner refused to grant a Patta on the ground that the assessment is shown in most accounts as Amrayi Kandayam and that the Tope must therefore be a Government Tope.

3. The Government consider that, under the circumstances of the case, the Petitioner is entitled to a Patta, and the Deputy Commissioner will be requested to grant it accordingly.

PETITION.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Petition),—dated 23rd August 1893.

READ :—

Petition of appeal Registered No. 2041 of the 4th February 1893, preferred by Chikkanna and others of Advi Gollavarahalli, Chikballapur Taluk, against the order of the Deputy Commissioner of the Kolar District, imposing on them a trade tax of Rs. 2 per head in 1891-92 for selling cocoons.

READ ALSO :—

Docket No. 3535—855 of the 12th May 1893, from the Deputy Commissioner of Kolar, submitting the Vernacular papers in the case and copy of the following letter No. 600 of the 5th May 1893 from the Sub-Division Officer of Chikballapur reporting on the above petition :—

With reference to the Chief Secretary's official Memorandum No. 1197 calling for a report with proceedings on an appeal presented by certain men of Advi Gollavarahalli, Chikballapur Taluk, who rear silk worm, I have the honor to state that the appellants are professional rearers of silk worm. They buy mulberry in addition to what is grown on their own lands for the purpose, a fact which they admit in their petition of appeal. Their contention is that they do not keep a spinning wheel and are not liable to the loom-tax. In these parts rearing of silk worm is a very remunerative and expensive industry. The men carry on the business as a much larger scale than the mulberry grown on their own land can support. I have seen cart loads of these cocoons taken to Chikballapur and there sold to spinners. If the appellants reared the worm solely from mulberry grown on their lands, they would not be liable to the tax. But they carry on a large trade from mulberry brought from others and selling the cocoons. They may not be liable to the loom-tax : but they are bound to pay the tax as a shop or trade tax. The tax is sanctioned by custom in other places. That the petitioners were not taxed hitherto cannot exempt them from it, if otherwise liable. The Kanarese papers accompany this report.

No. 3894-6—PET. 344, DATED, BANGALORE, 23RD AUGUST 1893.

ORDER THEREON.—Besides the facts reported in the letter read above, it appears from the Vernacular papers sent with it, that the appellants are agriculturists paying assessments varying from Rs. 2—6—0 to Rs. 79 per annum, and that they buy mulberry leaves, when the produce of their own fields is below the average, or when the worms they rear multiply in greater numbers than their own mulberry can serve. It appears also that 26 persons have been taxed for the first time in a single village with effect from the year Khara (1891-92) though they were exempted before. Under such circumstances the appellants contend that they are not liable to pay trade tax, that their buying mulberry for rearing the cocoons which they sell is not a justification for assessing them with a mohatarfa trade or shop tax and that what they sell is what they produce and not what they buy for the purpose of selling for a profit.

2. Before passing final orders in the case, Government resolve to ascertain what the practice is in the Bangalore and Mysore Districts, where similar cases must exist. The Deputy Commissioners of these Districts are requested to submit a report at an early date.

Chief Secretary.

Samachari of Dodda Hanasogé, Yedatore Taluk.		Krishna Báyi of Hanasogè.

The Government observe that neither the Appellant nor his father Ananthachar can have any right to the Puja Hak of the Mukhya Prana Devaru Temple, Dodda Hanasogè, Yedatore Taluk, under the Karar of 8th September 1879. That the father was only a Gumasta of Krishna Báyi was decided by the Muzarayi officer's order of 2nd October 1885. That decision was just and proper and the subsequent decision in favor of Petitioner by another Muzarayi officer cannot be supported on any just and reasonable grounds, and the Deputy Commissioner was right in cancelling it. The Government decline to interfere and dismiss this appeal.

C No 35-7, DATED 22ND AUGUST 1893.

ORDER THEREON—The house in which the Empress' Caste Girls' School is held has long been found to be too small for it The Deputy Commissioner of Tumkur does not consider it advisable to purchase the neighbouring house and lands for the purpose of extending the school building. Under these circumstances the Managing Committee of the School proposes to purchase a house not far from the present School belonging to one Srinivasaiengar with the object ultimately of building a new school house with sufficient accommodation on the site of Srinivasaiengar's house and selling the present house. As sites and houses in the heart of the Town of Tumkur are difficult to obtain, Government is pleased to authorise the Committee to purchase Srinivasaiengar's house on its behalf at Rs 1,100, the price settled by the Committee The land on which Srinivasaiengar's house stands measures 70×80 feet The purchase money will be paid in accordance with the instructions conveyed in Government order C No. 238 10, Educational, dated 22nd December 1891 from the balance of Rs 2,291—0—7 which was held in deposit in the Bangalore District Savings Bank on the 30th June 1893 by the Comptroller on account of the Empress' Girls' School Endowment Fund. Letter from the Deputy Commissioner of the Shimoga District No 1479—31 dated the 10th June 1893 to the Education Secretary forwarding for favourable consideration of Government an application from the Joint Secretaries of the Shimoga Balika Pathsala and recommending that the application may be granted for the transfer of the School to Government management

C. No 38-41, DATED 24TH AUGUST 1893

ORDER.—The Hindu Balika Pathasala in the Brahmin Street, Shimoga, was established in March 1892 for the education chiefly of Brahmin girls whose parents objected to send them to the Mission Schools The School started with 109 pupils. On the 3rd March 1893, the number on the roll was 114 The School has maintained its popularity and efficiency for more than 17 months It supplies a real want felt by the people of Shimoga. The Managers of the School represent that they are no longer able to maintain the School from their limited resources and request Government to make it a Government Institution. The Deputy Commissioner strongly recommends the transfer of the School to Government management. The people have proved by the voluntary aid which they have hitherto given but which they are unable to give permanently to the private school, their earnestness to have a school in which purely secular education is imparted to their daughters. Under these circumstances, Government is pleased to sanction the conversion of the Hindu Balika Pathasala into a Government Institution with effect from the 1st August 1893. The present scale of Establishment amounting to Rs. 54 a month is sanctioned and will be maintained until further orders.
